

Will You Pass? ∞

By Austė Maštavičiūtė

Why?

Mental Stress Among Children

Negative Health Effects

Most High School Students Consider Cheating OK

How?

- ❖ Portuguese High-school Survey (2014)
- ❖ Contesting Models:
 - ◆ K-Nearest Neighbours (KNN)
 - ◆ Logistic Regression
 - ◆ Random Forest
 - ◆ Naive Bayes (Bernoulli)
 - ◆ Naive Bayes (Gaussian)
 - ◆ Support Vector Classification (SVC)
 - ◆ Stochastic Gradient Descent (SGD)

A photograph of a dense forest with tall, slender trees. Sunlight filters through the canopy, creating a warm, golden glow and visible light rays. The forest floor is covered in lush green grass and ferns. The text "Random Forest" is overlaid in white serif font at the bottom center.

Random Forest

Why Random Forest?

Final Test:

- **Precision Score: 86%**

So Wouldn't It Be Great?

- Personal Info
- Family Info
- Historical Info (discipline related)
- Seemingly Unrelated Details

PASS

OR

FAIL
